- Sometimes described as wiley, cunning, and sneaky, I am a member of the dog family, I can run up to 40 MPH when chasing prey. _____
- I can gather up to 165 acorns in one day. Thankfully, I have pouches inside my cheeks in which helps me store food. _____
- This raptor has cat-like yellow eyes that do not move, but a feathered "plumicorn" head that can turn up to 270 degrees. _____
- A menace to the golf industry, I am the largest member of the squirrel family, and have been known to climb trees on occasion. _____
- My luxurious fur is water-repellent. _____
- Before I pupate, I can eat so much that I gain about 2700 times my original weight! I lay my eggs and feed on the milkweed plant. _____
- Often referred to as a rascal, thief, or bandit, I can make a quick retreat down a tree, head-first. _____
- I'm a small semi-aquatic amphibian that looks like a cross between a frog and a lizard. I can regrow lost limbs and organs. _____
- This raptor can view its prey up to 100 feet below and has red on its hind feathers. Considered sacred in the Native American culture. _____
- This spiky tailed reptile has a mouth that clamps down with speeds up to 656.81 newtons of force. (my cousin alligator: 158 newtons) _____
- Cute or not, you may wish to keep your distance. I can accurately spray up to 10 ft. to defend myself. _____
- The 3rd largest venomous viper in the US and is one of most dangerous. Can grow in length up to 74 inches. _____
